

SEEKING SITES

- BIRDCODE specializes in Nashville style Hot Chicken.

During an amazing trip to Nashville we fell in LOVE with Hot Chicken. Our desire to share this extraordinary food experience with our family, friends, and neighbors inspired us to create BIRDCODE Hot Chicken.

Taking our cue from the cult-like following of Nashville hot chicken, we've gone a step further to secure a code when it comes to our birds. Our chicken is all natural, fresh (never frozen), raised with humane animal welfare; NO antibiotics, NO hormones, NO junk. We fry it up nice n' good in 100% peanut oil with NO added chemicals or byproducts. Each of our tasty sides is made fresh daily from only the highest-quality, responsibly sourced ingredients.
